Welcome!

FOR APPLICANTS: Please click on the 'PROPOSAL' button above to submit a new pre-proposal or to view/delete your pre-proposal applications.

FOR REVIEWERS: Please click on the 'REVIEW' button above to submit your reviews.

The National Research Foundation (NRF) Proof-of-Concept (POC) Grant Scheme

The NRF POC grant scheme provides funding for proof-of-concept development to researchers in the institutions of higher learning (IHLs), so as to facilitate the commercialisation of technologies developed in the IHLs.

The NRF POC grant will be awarded through a competitive application process to support projects which are technically proven and have potential for commercially viability. The grant will go towards supporting the R&D costs related to the development in a proof-of-concept project. The development work must be conducted in the IHLs, and should yield results pertaining to viability for commercialisation.

Applicants awarded the grant will receive up to S$250,000 for their project, which should last no more than 1 year. The actual amount awarded will depend on the extent of work to be carried out.

Assessment and Selection Criteria

Grants will be awarded through a competitive application process and proposals will be reviewed based on the following criteria:
Click on ‘Submit a Proposal’ to submit a pre-proposal.

Click on ‘List of Proposal’ to view/delete your pre-proposals.

The current system does not allow to make amendments to your pre-proposal once submitted. You can only delete and submit a new pre-proposal.
If you are also a reviewer, the ‘Review’ button will be visible to you.

Welcome!  

FOR APPLICANTS: Please click on the ‘PROPOSAL’ button above to submit a new pre-proposal or to view/delete your pre-proposal applications.

FOR REVIEWERS: Please click on the ‘REVIEW’ button above to submit your reviews.
